

MOBILE DEWATERING PLANT

The DEWA mobile sludge dewatering unit is a complete system that can be mounted on a trailer. It really is the ultimate "plug and play" system. The fully enclosed system creates an operator friendly environment with minimum risk of contact with sludge cake or vapours.

Unit volumes are available from 1m³/hr to 30m³/hr. Our equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. Our representatives work closely with customers in almost 30 countries to help them stay ahead.
